Herbal Foundations

*An In-depth
Program in
Herbal Medicine*

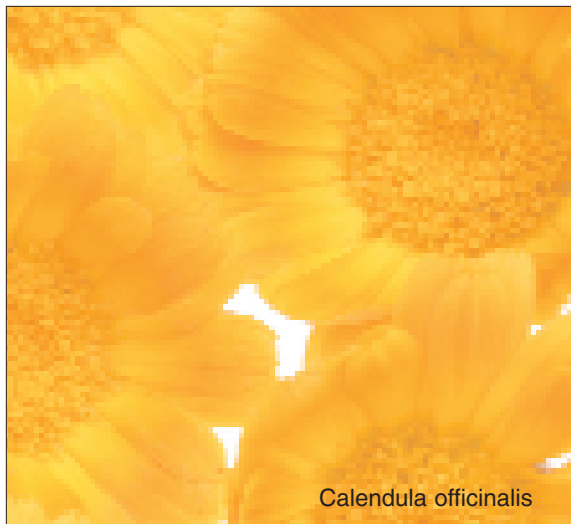

The Inspiration

Since Meadowsweet began over ten years ago, it has been our dream to offer an in-depth herbal studies program. As it comes to fruition, we ask you to join us for our new annual herbal program: Herbal Foundations.

Make a deeper connection to the earth. Discover the healing properties of medicinal plants - a special and unique part of our world.

Come on a Journey with us and experience an intimate connection with healing herbs that are native to the Northern Rocky Mountains. We will study medicinal plants easily grown in our northern climate as well as some special exotics. Learn how to grow herbs and how essential oils are made. Explore using herbs for different body systems. Learn the art and science of medicine making. Discover how to respectfully harvest wild plants.

We are looking for enthusiastic students committed to a long term class series. Join in our excitement as we explore the healing power of plants and the study of herbal medicine.

The Details

Dates: June 7 - October 4, 2006

Day & Time: Wednesday afternoons from 1 - 4 pm

Location: will vary depending on the type of class being offered.

Cost: \$495* for over four months of classes including more than 50 hours of instruction. Contact us for payment options.
